OKAY MIRROR

**Focus on
SmartMirror
Mirror cabinet**

TECHNOLOGY

Illuminated mirrors and shaving cabinets are a blend of LED lights and mirrors, combined with modern-day smart technology. We have purposely designed our product lines to be both visually appealing and functional, with features such as LED Lighting, Dimmers, Magnifiers, Bluetooth Speakers and Digital Clocks. Just a simple touch activates these functions, making your daily life a little more convenient and comfortable.

-  LED Lighting
-  Dimmable
-  Adjustable Light Colour
-  Demister
-  Bluetooth Speakers
-  Digital Clock
-  Magnifier
-  Touch Sensor

DIMMABLE

Dimmable technology allows you to adjust the lighting level to your preference. Start your day energised with full brightness, then relax and wind down in the evening with more subdued ambiance – or choose anything in between.

ADJUSTABLE LIGHT COLOUR

With the ability to change the light colour from warm to cool, you are able to mimic the lighting of any occasion that you are attending, and apply makeup accordingly.

DEMISTER

One of the more luxurious features of Okya mirrors and shaving cabinets is the inclusion of the Demister. The demister functionality allows you to have steamy showers without compromising the quality and care of your mirror. You'll be able to bask in the heat of your bathroom – a luxury on cold winter mornings – while still having a clean, clear mirror to do your morning skincare routine. With more time saved in the morning not having to wipe down your mirror, and the added comfort of having a warm bathroom during your mornings, the Remer mirror and shaving cabinet collections add convenience to your day-to-day routine that was previously not possible. Simply switch this function on via the Touch Sensor before your shower to keep it fog-free. Every single detail has been considered in the making of your Remer product.

Demister with Auto Cut-off*

BLUETOOTH SPEAKERS

Enhance your bathroom experience with sound. Choose the playlist that sets the mood for the day and connect straight from your phone to the Bluetooth mirror. The in-built speakers project the sound to surround your entire bathroom space. Create a space that is entirely yours.

DIGITAL CLOCK

Spend more time doing what you love. Keep track of your bathroom time so you can do more with the rest of your time. The Digital Clock is seamlessly integrated – without marring the mirror's beautiful look and feel.

MAGNIFIER

Precision creates perfection. Magnify your face to effortlessly groom and apply makeup. With a ring of light that surrounds the built-in Magnifier, you'll have no more overhead shadows.

TOUCH SENSOR

Technologies are controlled via a simple touch.

Size: L500*H700*D125 MM

SOFT CLOSE HINGE

Along with the clip-on system and adjustable hinges, the hinge provides a smooth and silent close to reduce noise and eliminate the slamming of doors.

CONCEALED WIRE TECHNOLOGY

Maintains the aesthetic interior look of a shaving cabinet with advanced technologies (lighting, demister and touch sensor) on the doors. Without wiring connecting the doors to the carcass, the doors can be easily removed for installation and maintenance.

DOUBLE SIDED MIRRORS DOORS

With both double-sided mirror doors opened, you are able to use the internal mirror to look at the back of your head effortlessly.

SEMI RECESSABLE

With touch sensor technology and pilot hole, the shaving cabinet can be easily semi-recessed into walls to free up space.

ADJUSTABLE GLASS SHELVES

Tempered glass shelves can be adjusted to the millimetre on the integrated rail slate system. Without the visibility of pre-drilled shelving holes, it offers a clean, minimalist look.
